

SUNBURST

**New Foundation of the
Type to Learn® Series!
NOW AVAILABLE!**

Synopsis: K-12 Students learn touch-typing keyboarding skills, reinforcing home row positioning, proper fingering, and reaches. All letter and number keys are taught, including the numeric keypad and common keyboarding shortcuts such as Control+C. Lessons, activities, and assessments analyze students' scores throughout the program and assign remediation or adjust goals where needed.

Enhancements: Type to Learn 4 features an updated research-based pedagogy, diagnostic, formative, and summative assessments, expanded student and teacher reporting, ESL support, additional customization settings, newly designed interfaces based on students' grade level, multiple vocabulary levels per lesson, cross-curricular content, and real-world typing tasks.

Conclusion: Type to Learn 4's proven pedagogy, robust assessment and reporting, individualized automatic goals and remediation, and proven process of review, warm-up, instruction, practice, and assessment, make this program a definite must-have for any keyboarding curriculum!

Windows:
2000, XP, Vista

Macintosh:
Mac OS X 10.3.9, 10.4, 10.5
PowerPC and Intel platforms

BRAND NEW

Grades K-12. Developed on a proven, research-based keyboarding curriculum of sequential touch-typing instruction, Type to Learn 4 builds critical 21st Century skills for all students in grades K-12. The integrated cycle of review, demonstration, practice, and assessment, with continuous reinforcement of home row positioning, teaches proper fingering for each key with ample opportunity for skills practice. The program emphasizes both accuracy and words per minute speed, and provides each student with individualized remediation and goals for success. This engaging new product wraps keyboarding lessons into an intriguing world of adventure and information, complete with exciting new activities and redesigned student and teacher interfaces.

Available as either a CD-ROM product or as a web-based application, Type to Learn 4 can now be used by students anywhere with an internet connection! Type to Learn 4 addresses an essential, life-long skill for students in today's technology-driven world.

Learning is extended from the instructional lessons by 5 supporting practice activities. There is also a diagnostic pre-test and 6 formative assessments placed throughout the lessons. Assessments analyze students' accuracy and speed, setting and adjusting achievement goals as the student improves. Lessons also track students' accuracy and speed and assign immediate, individualized remediation where needed.

Teachers and parents will appreciate the real-time record-keeping, including progress graphs and reports on lessons, activities, and assessments. Teachers can analyze student errors by hand, finger, and key to pinpoint problem areas. The new parent report, accessed from the student login, allows parents to track their child's progress and scores throughout the program.

3D hands help students identify the correct hand placement and reaches to new keys.

In the Re-Connect game, students rebuild infrastructure as they practice typing to increase accuracy.
